Regarding Today's Media Report.

Today, the Nihon Keizai Shimbun reported that we have decided to acquire at least a majority stake in Hitachi Global Life Solutions, Inc. for over 100 billion yen. However, this report was not based on any official announcement made by our company.

While it is true that we are currently considering this matter, it is scheduled to be discussed at the Board of Directors meeting to be held today. We will promptly make an official announcement if any matters arise that require disclosure.
